

Composite Doors

About Frecheville Composite Doors

Composite doors have been designed and developed specifically for the UK market, with a wide range of door designs appealing to both the commercial and retail sector.

Through a carefully selected mix of innovative products from leading brands, Composite doors offer the highest levels of safety and security.

The emphasis is firmly on choice. With a huge range of door styles, glazing designs, colours, and hardware options to choose from, there is a door style to suit every property type.

PAINT

Standard Colours

A range of 9 external colours with white interior as standard. Coloured both sides is a cost option.

Premium Colours

Our range of 38 premium colours finished in a Semi-Matt, Satin or Semi-Gloss sheen dependent upon colour.

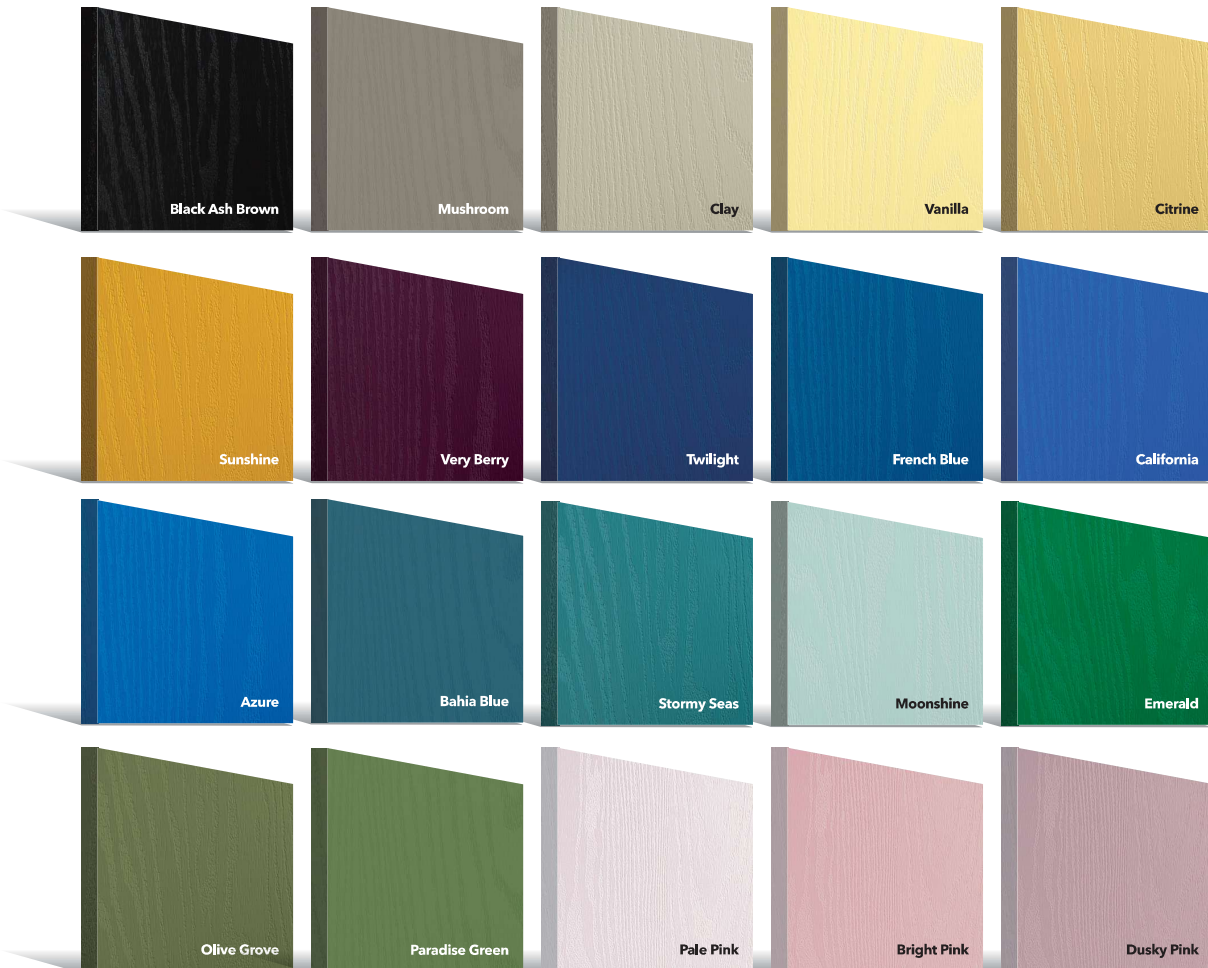

PATiNA

An exciting range of 6 patina colours are available exclusively on the Monza II, Eaton, Knightsbridge, Tatton, Gleneagles, Oulton, Grove and Kings door styles.

PAiNT allows us to colour match anything

Yes. Anything.

With our high-performance paint technology we can offer any colour door you desire.

Door colours shown in this brochure should be used for guidance only. We have made every effort to match the colour and stain you see in the brochure so it's as close as possible to our paint when applied to the doors. Due to the nature of the product it is applied to, there is sometimes a difference between them which we cannot avoid. The colour, intensity and sheen level may differ from the paper print version and we do not accept any liability for this for whatever reason. To ensure that you are getting the right colour on your door, ask for your DoorCo® colour swatch today.

QR Coded Composite Doors

Doors are fitted with a unique QR code label providing instant access to all door information. Simply scan the QR code to access product information.

1 Full product access

View full profile, hardware and glass specifications.

2 Simple to use

Simply scan the QR code using a mobile phone to access real time information.

3 Cost effective

Eliminates costly call out charges for replacement parts.

4 Full traceability

Trace installer and manufacturer information.

5 Aftercare support

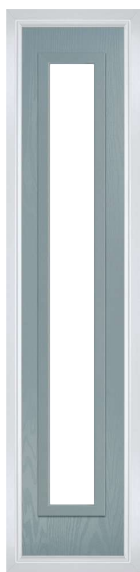

Download care & maintenance guides to keep your new composite door looking great.

Composite Sidepanel Options

For homes with larger openings, we offer a range of panelled and flush sidelight options to complement your door. This option is available with full, matching decorative glass. Size restrictions apply.

Locking Systems

Lever Operated Lock

High performance multi-point locking system with triple hooks and twin rollers for optimum security.

Bi-directional hooks secure the door to the frame whilst twin rollers ensure maximum weather sealing.

Auto Slam Lock works with Kubu®

The Slam Shut multi point lock latches automatically engage when the door is closed. Available in a **Contemporary** version with a centrally located gearbox, and a **Heritage** version with an elevated gearbox.

The slam shut lock has been specifically designed to work with Kubu, providing the user with information on whether the door is closed, locked and under attack.

Kubu Smart as Standard

Composite doors are Smart as Standard. Kubu is a smart sensor that monitors door locks in real time, providing information on whether doors are closed, locked and under attack. To use this feature, sensors can be purchased at point of order, alternatively homeowners can purchase direct from Kubu.

www.getkubu.com

- 1 Simple to use**
Kubu works on any door, any window and any handle.
- 2 Completely concealed**
Sensors fit seamlessly into doors; you won't know they are there.
- 3 Smart Home integrated**
Kubu works with most smart-tech brands. Activate notifications with the turn of a key, or by opening a window.
- 4 Cost effective**
Works as a cost-effective full house security system.
- 5 Guarantee**
Backed up by a 10-year mechanical guarantee.

ULTION

If a burglar snaps
Ultion and breaks in
£5000
GUARANTEE

Meet Ultion - Smarter locking for UK Homes

The Ultion 3 star cylinder is the strongest and most secure lock in the UK market. Designed to withstand every type of attack the Ultion cylinder is approved by everyone.

Approved by Locksmiths

Few locks survive the test designed with the Master Locksmith Association and carried out by locksmiths.

Secured by Design

The official UK Police flagship initiative combining the principles of 'designing out crime' with physical security.

Approved by British Standards

Kitemark is the standard of excellence recognised around the world. Ultion is accredited with the highest 3 star rating.

ULTION

STAYS LOCKED

When the Ultion lock detects an attack, it goes into

Double Lockdown Mode™

A hidden attack lock secures the mechanism.

Double
Anti-Snap protection
The intruder needs to snap Ultion twice before he sees the core.

2
Attack locks
Lock still works from inside after an attack.

2 Part
Plug design
With molybdenum - stronger for longer.

20
Drill Defences
8 hardened steel rods and 2 plates in both ends.

25%

Denser than iron

The molybdenum core that houses the attack pins.

Ultion Stays Locked

The office for national statistics has found that 73% of home burglaries take place through a door. The Ultion 3 star cylinder puts your home out of the reach of intruders, so much so that it comes with a £5000 direct to homeowner guarantee. Designed to combat against all known methods of attack, any attempt of forced entry will see the Ultion go into 'Lockdown Mode' where a protected lock activates directly into the central cam.

- ORIGINAL composite doors feature the Ultion 3 star cylinder as standard.
- Ultion comes with a £5000 guarantee if an intruder burgles your home by snapping Ultion.

Care and Maintenance

Your new door should keep safe and secure for years to come however with all products and especially those that are exposed to the elements we recommend that you carry out a care and maintenance routine.

- > **Door frames should be washed with warm soapy water; however stubborn stains can be removed using specialist PVC-u cleaners and by following the manufacturers' guidelines.**

- > **The door leaf should only be cleaned using warm water or non-aggressive composite door wipes. No solvent-based product or abrasives should be used as these will damage the surface of the skin.**

- > **External glass should be cleaned with warm soapy water and cleaned with a proprietary glass cleaner.**

- > **Hardware can be cleaned with a mild detergent and wiped clean. No harsh chemicals or abrasives should be used.**

- > **Maintenance of the door may be required to maintain any guarantees from the installer. Hinges should be lubricated with engineering oil. Cylinders can be lubricated with Teflon-based products only, as other oils may cause degradation. If necessary, a small amount of lubricant can be applied to the moving parts such as letterplates, handles and knockers.**
